

Members,

We are excited to announce that the water was turned back on March 28th and the sites in the lower loop and along the hill up the main drive are available for full hookup camping. The trees are blooming, the flowers are coming up and the park is absolutely beautiful! Due to COVID-19 precautions and local restrictions, we are not gathering in groups and our pavilion and library/bathrooms are closed but please come and enjoy your social distancing in the safety of your own Airstream surrounded by nature. We look forward to our next rally and being able to be back together again.

Note: As all sites will be active and available for camping, trailers in the D section (the middle section of the lower loop) as of Monday April 6th will be charged the regular daily parking rate going forward. If you would like to keep your Airstream in storage at the Top, please call or see the host to make arrangements.

We hope you are enjoying your time with your families and safe travels when you are able to hit the road again.

Your TOG Board

Thanks! See you at the park soon!
