

Dear Airstream Family,

Effective this winter we will be making improvement to the TOG Airstream Park. This is what we are planning on doing and how it will affect you. Please know that this is fluid as we are depending on weather, equipment, and volunteers so there may be changes as we go along. I am listing these by different areas in the park:

Section B_ 17-32 will start November 7th and then followed by Section A_ 1-20 in the upper park will be having new electric pedestals and frost-free water faucets installed. You may be asked to move your trailers as needed, and Rick and Tom will be there to help some of you move if and when it is maybe necessary.

Water will be turned off November 5, 2022 in the lower section below the bridge.

No parking will be allowed in the lower section, including the center section (Section D) and Section C. The crew will be tree trimming, dredging ditches, and working with the sewer.

The only trailers in the lower section will be the 10 designated as storage trailers and they will be in the very bottom in Section S (for storage).

Please work with us and be patient as we make these changes to improve our Park.

Mary Anne
